

For FDEP Internal Use Only
Permit ID: FLR _____

NOTICE OF INTENT TO USE GENERIC PERMIT FOR DISCHARGE OF STORMWATER FROM PHASE II MUNICIPAL SEPARATE STORM SEWER SYSTEMS (RULE 62-621.300(7)(b), F.A.C.)

INSTRUCTIONS:

- This NOI must be completed and submitted to the Department to authorize use of the Generic Permit for Discharge of Stormwater from Phase II Municipal Separate Storm Sewer Systems ("MS4 GP"), provided in Rule 62-621.300(7)(a), F.A.C.
- The type of municipal separate storm sewer system that qualifies for coverage under the MS4 GP and the applicable Phase II MS4 stormwater management program requirements are specified in the permit. You should familiarize yourself with the MS4 GP before completing this NOI.
- Submit this fully completed NOI, permit fee, and required attachments by mail to the address in the box at right. **DO NOT SUBMIT any materials not in the checklist in Section V. of this NOI.**
- **Please print or type information in the appropriate areas below and complete each section.**

Submit NOI, permit fee, and required attachments to:
 NPDES Stormwater Notices Center
 M.S. #2510
 Florida Department of Environmental Protection
 2600 Blair Stone Road
 Tallahassee, FL 32399-2400

SECTION I. PHASE II MS4 OPERATOR INFORMATION			
A.	Name of the Phase II MS4 Operator: City of Gainesville		
B.	Name of the Phase II MS4 Responsible Authority: Russ Blackburn		
	Title: City Manager		
	Mailing Address: PO Box 490, MS #6		
	City: Gainesville	Zip Code: 32602-0490	County: Alachua
	Telephone Number: (352) 334-5010		
C.	Name of the Designated Phase II MS4 Stormwater Management Program Contact: Sally Adkins		
	Title: NPDES Program Coordinator		
	Department: Public Works		
	Mailing Address: PO Box 490, MS #58		
	City: Gainesville	Zip Code: 32602-0490	County: Alachua
	Telephone Number: (352) 334-5070		
	E-mail Address: adkins@cityofgainesville.org		
D.	Location of the Phase II MS4 (if different than the mailing address in Section I.C. above):		
	Street Address: 306 NE 6th Avenue, Room 348		
	City: Gainesville	Zip Code: 32602-0490	County: Alachua
E.	Approximate center of the Phase II MS4:		
	Latitude: 29 ° 40 ' 37 "	Longitude: 82 ° 20 ' 28 "	
F.	Phase II MS4 ownership status (check one): <input checked="" type="checkbox"/> Public <input type="checkbox"/> State <input type="checkbox"/> Federal		
G.	Total resident population of the Phase II MS4: 122,671		
H.	Name of the urbanized area(s) the Phase II MS4 is located within (if applicable): Gainesville		
I.	Name of the Water Management District the Phase II MS4 is located within (check all that apply):		
	<input type="checkbox"/> Northwest Florida Water Management District	<input type="checkbox"/> Southwest Florida Water Management District	
	<input checked="" type="checkbox"/> Suwanee River Water Management District	<input checked="" type="checkbox"/> St. John's River Water Management District	
	<input type="checkbox"/> South Florida Water Management District		

SECTION II. SHARING RESPONSIBILITY

You may rely on another entity to satisfy some or all of your permit obligations if the conditions in Part IX of the MS4 GP are met. Another entity may implement one or more of the measures and/or a component of a measure on your behalf. You may rely on another entity to satisfy all permit obligations (including annual reporting) but only if the entity is permitted under Chapter 62-624, F.A.C. Note the following:

- You will remain responsible for compliance with your permit obligations if the other entity(ies) fails to implement the control measure(s) or a component thereof on your behalf. You must establish a written agreement with the other entity(ies) before submitting this NOI.
- Relying on another entity, or entities, either partially or fully does not preclude you from the obligation to fully complete this NOI, including the information required in Section IV.

A.	1.	Has another entity, regulated under Chapter 62-624, F.A.C., agreed to implement <u>all</u> of your permit obligations on your behalf? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
	If yes, complete Section II.A.2. If no, skip to Section II.B.			
	2.	Name of Entity:		
		Contact Name:		
		Title:		
		Department:		
		Mailing Address:		
		City:	Zip Code:	County:
Telephone Number:				
E-mail Address:				
B.	1.	Has another entity agreed to implement one or more of the minimum control measures (or a component thereof) on your behalf? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
	If yes, complete Sections II.B.2. and II.B.3. (See the note below for any additional entities)			
	2.	Control measure(s) or component of a control measure to be implemented by the other entity: 3. IDDE; elements 3b, 3c; 4. Construction Site Stormwater Runoff Control elements 4c.		
	3.	Name of Entity: Alachua County		
		Contact Name: Agustin Olmos, P.E.		
		Title: Environmental Engineer		
		Department: Environmental Protection		
		Mailing Address: 201 SE 2nd Ave, Suite 201		
		City: Gainesville	Zip Code: 32601	County: Alachua
		Telephone Number: (352) 264-6806		
E-mail Address: Gus@alachuacounty.us				
Note: For each additional entity sharing stormwater management program responsibilities with you, provide on a separate sheet the information requested in Sections II.B.2. and II.B.3. Title the sheet "Section II.B: Additional Entities Information" and attach it to this NOI.				

SECTION III. RECEIVING WATERS

Identify the named receiving waterbodies to which your Phase II MS4 discharges. Include all such waterbodies known to you at the time of this application:

<u>Turkey Creek, Hidden Lake, Hatchet</u>	<u>Hammocks Lake, Newnans Lake,</u>	<u>Alachua Sink, Calf Pond,</u>
<u>Creek, Blues Creek, Fox Pond, Little</u>	<u>Prairie Creek, Moon Lake,</u>	<u>Calf Pond Creek, Perch Lake,</u>
<u>Hatchet Creek, Gumroot Swamp,</u>	<u>Lake Forest Creek, Kingswood Pond,</u>	<u>Boulware Springs, Boulware</u>
<u>Possum Creek, Hogtown Creek,</u>	<u>Sweetwater Branch, Hogtown Prairie,</u>	<u>Springs Branch, Paynes Prairie</u>
<u>Terwilliger Pond, Clear Lake,</u>	<u>Sugarfoot Prairie, Bivens Arm,</u>	
<u>Kanapaha Lake, Lake Meta,</u>	<u>Tumblin Creek, Colclough Pond,</u>	

SECTION IV. MINIMUM CONTROL MEASURES

A. Complete the Phase II MS4 Stormwater Management Program (SWMP) Elements Form in Appendix A for each minimum control measure described in Part VI. of the MS4 GP, except the Post-construction Stormwater Management in New Development and Redevelopment minimum control measure if you have chosen the qualifying alternative program option for this measure under Part X. of the permit. If you choose, however, to implement BMPs for the Post-construction measure, please complete a SWMP Elements Form for the measure.

Include in the SWMP Elements Form all best management practices (BMPs) currently in place or planned for each element of each minimum control measure. There is no limit to the number of BMPs you may include. Make copies of the form as necessary to accommodate all of your BMPs. The completed forms, in their entirety, will be considered by the Department to be the outline of your proposed stormwater management program. Attach all completed forms to this NOI.

B. Provide the total number of pages of SWMP Elements Forms that are attached to this NOI for each minimum control measure:

<u>Minimum Control Measure</u>	<u># of Pages</u>
Public Education and Outreach as to Stormwater Impacts	3
Public Involvement/Public Participation	3
Illicit Discharge Detection and Elimination	3
Construction Site Stormwater Runoff Control	3
Post-construction Stormwater Management in New Development and Redevelopment	0
Pollution Prevention/Good Housekeeping for Municipal Operations	5

SECTION V. MATERIALS TO BE SUBMITTED WITH THIS NOI

Only the following materials are to be submitted to the Department along with your fully completed and signed NOI (check the appropriate box to indicate whether the item is attached or is not applicable):

- | | | |
|-------------------------------------|-------------------------------------|--|
| <u>Attached</u> | <u>N/A</u> | |
| <input type="checkbox"/> | | The permit application fee, as prescribed by Rule 62-4.050(4)(d)(6), F.A.C. Make all check and money orders payable to the Florida Department of Environmental Protection. |
| <input checked="" type="checkbox"/> | | A fully completed Phase II MS4 Stormwater Management Program Elements Form (see Appendix A) for <u>each</u> minimum control measure except the Post-construction Stormwater Management in New Development and Redevelopment minimum control measure if you have chosen the qualifying alternative program option for this measure under Part X. of the MS4 GP. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Additional entities information, as required under the note in Section II.B. of this NOI. |

DO NOT SUBMIT ANY OTHER MATERIALS

(such as your complete Stormwater Management Plan, ordinances, storm sewer map, public outreach, etc.)

SECTION VI. CERTIFICATION STATEMENT AND SIGNATURE

The Responsible Authority listed in Section I.B. of this NOI must sign the following certification statement:¹

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Name of Phase II MS4 Responsible Authority (type or print): Russ Blackburn

Title: City Manager

Signature: _____ Date: / /

¹ Signatory requirements are contained in Rule 62-620.305, F.A.C.

**INSTRUCTIONS FOR APPENDIX A
PHASE II MS4 STORMWATER MANAGEMENT PROGRAM (SWMP) ELEMENTS FORM**

General Instructions

- Complete this form for each minimum control measure described in Part VI. of the Generic Permit for Discharge of Stormwater from Phase II Municipal Separate Storm Sewer Systems ("MS4 GP") provided in Rule 62-621.300(7)(a), F.A.C., except the Post-construction Stormwater Management in New Development and Redevelopment minimum control measure if you have chosen the qualifying alternative program option for this measure under Part X. of the permit. If you choose, however, to implement BMPs for the Post-construction measure, please complete a SWMP Elements Form for the measure.
- Include all best management practices (BMPs) currently in place or planned for each element of each minimum control measure. There is no limit to the total number of BMPs you may include.
- Make copies of the form as necessary to accommodate all of your BMPs.
- The completed forms, in their entirety, will be considered by the Department to be the outline of your proposed stormwater management program. Attach the forms to the NOI and submit to the Department at the address provided on the NOI.
- **Please print or type information in the appropriate areas of this form.**

Section A.I: MINIMUM CONTROL MEASURE

- Indicate which minimum control measure the BMPs in Section A.II. address. Check only one measure. Use a separate form for each measure.

Section A.II: BEST MANAGEMENT PRACTICES

- Include BMPs only for the measure you have identified in Section A.I. The Department encourages the use of the Florida Land Development Manual: A Guide to Sound Land and Water Management (FDER, 1988) and the U.S. Environmental Protection Agency's National Menu of Best Management Practices for Storm Water Phase II in developing Phase II stormwater management programs. Both are available from the Department.
- Element ID: Table 1 below includes all the minimum control measure elements required under Part IV. of the MS4 GP. Using Table 1, identify which element of the minimum control measure each BMP addresses. For example, a BMP addressing the procedures for site plan review under the Construction Site Stormwater Runoff Control Minimum Control Measure would be labeled as "4d." You must include at least one BMP for each element.
- BMP Number: For each minimum control measure, number the BMPs starting with 01 and continue the numbering in sequential order on any additional forms for the measure. The numbering of the BMPs is for reference purposes only and does not provide additional weight to, nor prioritize, one BMP over another.
- Measurable Goals: List the measurable goal(s) for each BMP. You must include at least one measurable goal for each BMP and may include as many as necessary for the BMP – you are not limited to the four lines provided on the form.
- Schedule for Implementation/Completion: For each measurable goal, include the year each action will be implemented and, as applicable, the interim milestones, completion date, or planned frequency of the action.
- Responsible Entity/Department: Include the name of the entity (if other than the Phase II MS4 Operator) or of the internal department (if it is the Phase II MS4 Operator) responsible for implementing or coordinating each BMP.

Page Numbering

- Once this form has been completed for each minimum control measure, place the forms in an order corresponding to the order of the measures in Table 1 (below) and number the forms accordingly at the bottom of each.

Table 1: Minimum Control Measure Required Elements

Element ID	Description of Minimum Control Measure Required Elements
1a	<p>1. Public Education and Outreach Minimum Control Measure:</p> <p>a) Implement a public education program to distribute educational materials to the community or conduct equivalent outreach activities about the impacts of stormwater discharges on water bodies and the steps that the public can take to reduce pollutants in stormwater runoff.</p>
2a	<p>2. Public Participation/Involvement Minimum Control Measure:</p> <p>a) Comply with State and local public notice requirements when implementing a public involvement/public participation program.</p>
3a	<p>3. Illicit Discharge Detection and Elimination Minimum Control Measure:</p> <p>a) Develop, if not already completed, a storm sewer system map, showing the location of all known outfalls and the names and location of all surface waters of the State that receive discharges from those outfalls.</p>
3b	<p>b) To the extent allowable under State or local law, effectively prohibit through ordinance, or other regulatory mechanism, of non-stormwater (i.e., "illicit") discharges into the storm sewer system and implement appropriate enforcement procedures and actions.</p>
3c	<p>c) Develop and implement a plan to detect and eliminate non-stormwater discharges, including illegal dumping, to the MS4.</p>
3d	<p>d) Inform public employees, businesses, and the general public of hazards associated with illegal discharges and improper disposal of waste.</p>
4a	<p>4. Construction Site Stormwater Runoff Control Minimum Control Measure:</p> <p>a) Develop and implement, to the extent allowable under State or local law, an ordinance or other regulatory mechanism to require erosion and sediment controls, as well as sanctions to ensure compliance, to reduce pollutants in any stormwater runoff to the Phase II MS4 from construction activities that result in a land disturbance of greater than or equal to one acre. Reduction of pollutants associated with stormwater discharges from construction activity disturbing less than one acre must also be included if that construction activity is part of a larger common plan of development or sale that would disturb one acre or more.</p>
4b	<p>b) Develop and implement requirements for construction site operators to implement appropriate erosion and sediment control best management practices.</p>
4c	<p>c) Develop and implement requirements for construction site operators to control waste such as discarded building materials, concrete truck washout, chemicals, litter, and sanitary waste at the construction site that may cause adverse impacts to water quality.</p>
4d	<p>d) Develop and implement procedures for site plan review that incorporate consideration of potential water quality impacts.</p>
4e	<p>e) Develop and implement procedures for receipt and consideration of information submitted by the public.</p>
4f	<p>f) Develop and implement procedures for site inspection and enforcement of control measures.</p>
5a	<p>5. Post-construction Stormwater Management in New Development and Redevelopment Minimum Control Measure: NOT REQUIRED IF USING QUALIFIED ALTERNATIVE PROGRAM</p> <p>a) Use an ordinance or other regulatory mechanism, to the extent allowable under State or local law, to address from post-construction runoff from new development and redevelopment projects that disturb greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale, that discharge into the Phase II MS4. The program must require that controls be in place that would prevent or minimize water quality impacts from new development or redevelopment.</p>
5b	<p>b) Develop and implement strategies that include a combination of structural and/or non-structural best management practices (BMPs) appropriate for the community.</p>
5c	<p>c) Require adequate long-term operation and maintenance of BMPs.</p>
6a	<p>6. Municipal Operation Pollution Prevention and Good Housekeeping Minimum Control Measure:</p> <p>a) Develop and implement an operation and maintenance program that has the ultimate goal of preventing or reducing pollutant runoff from MS4 operator activities, such as park and open space maintenance, fleet and building maintenance, new construction and land disturbances, and stormwater system maintenance.</p>
6b	<p>b) Using training materials that are available from EPA, the Department, or other organizations, include employee training to prevent and reduce stormwater pollution from MS4 operator activities.</p>

APPENDIX A - City of Gainesville
 PHASE II MS4 STORMWATER MANAGEMENT PROGRAM (SWMP) ELEMENTS FORM City of Gainesville

SECTION A.I. MINIMUM CONTROL MEASURE (check only one)

1. Public Education and Outreach 3. Illicit Discharge Detection/Elimination 5. Post-construction Stormwater Management (optional)
 2. Public Involvement/Participation 4. Construction Site Stormwater Runoff Control 6. Pollution Prevention/Good Housekeeping

SECTION A.II. BEST MANAGEMENT PRACTICES (BMPs) For The Minimum Control Measure Identified In Section A.I. Of This Form

		A	B	C	D
Element ID	BMP Number	BMP Description	Measurable Goal	Schedule for Implementation/Completion	Responsible Entity/Department
1a	1	Utility Bill Inserts. Stormwater pollution prevention information will be inserted into utility bill statements and distributed to all City of Gainesville (COG) and select Alachua County (AC) residents within the Gainesville Regional Utilities (GRU) service area.	1. Document and report the number of utility bill stormwater inserts distributed.	1. Year 1 – Year 5	City of Gainesville Public Works, Gainesville Regional Utilities.
1a	2	Public Service Television Stormwater Announcements. The City and County air several public service announcements/ informational programs to make the public aware of stormwater pollution prevention strategies, the effects of stormwater pollution, and City and County stormwater contact information.	1. Document and report the number of stormwater-related PSAs aired.	1. Year 1 – Year 5	City of Gainesville Public Works, City of Gainesville Communications, Alachua County Communications.
			2. Document and report the estimated number of listeners.	2. Year 1 – Year 5	City of Gainesville Public Works, City of Gainesville Communications, Alachua County Communications.
1a	3	Elvis Otter and His Creekside Gang Stormwater Pollution Prevention Movie. The City and County produced a movie to make children aware of stormwater and how they can prevent its pollution. This program airs on the local government channel and has been distributed to all elementary schools in the County.	1. Document and report the number of times aired.	1. Year 1 – Year 5	City of Gainesville Public Works, City of Gainesville Communications.
			2. Document and report the number of times checked out of elementary media centers.	2. Year 1 – Year 5	City of Gainesville Public Works.
1a	4	Stormwater Information Distribution. Stormwater brochures and pamphlets are distributed at various distribution points throughout the City such as governmental offices, businesses and other public buildings.	1. Document and report the number of distribution points.	1. Year 1 – Year 5	City of Gainesville Public Works, Alachua County Environmental Protection, IFAS Florida Yards and Neighborhoods.
			2. Document and report the number of educational materials distributed.	2. Year 1 – Year 5	City of Gainesville Public Works, Alachua County Environmental Protection, IFAS Florida Yards and Neighborhoods.

The City, County and the Florida Department of Transportation (FDOT) District 2 maintain a storm sewer system map showing all known outfalls and the names and location of all surface waters of the State that receive discharges from those outfalls. This map is continually updated.	1. Document and report the number of outfalls mapped.	1. Permit Years 1-5	City of Gainesville Public Works.
3a	2	Watershed Map. The City and County maintain a map of all watersheds in the Gainesville Urban Area. This map is updated as necessary.	1. Document and report the number of watersheds mapped.	1. Permit Years 1-5	City of Gainesville Public Works.
3b	1	Illicit Discharge Ordinance. The Alachua County Water Quality Ordinance (WQO) effectively defines and prohibits non-stormwater discharges into the MS4 and provides the County enforcement authority throughout the urban area.	1. Document and report any changes to the ordinance or amendments, if applicable.	1. Permit Years 1-5	Alachua County Environmental Protection.
3c	1	Illicit Discharge Detection and Elimination Hazardous Material Facility Inspection Program. The County performs proactive inspections at all Hazardous Materials regulated facilities to specifically identify illicit discharges including illegal dumping. All illicit discharges are investigated and eliminated if possible.	1. Document and report the number of proactive inspections.	1. Permit Years 1-5	Alachua County Environmental Protection.
			2. Document and report the number of illicit discharges identified.	2. Permit Years 1-5	Alachua County Environmental Protection.
			3. Document and report the number of illicit discharges eliminated.	3. Permit Years 1-5	Alachua County Environmental Protection.
3c	2	Illicit Discharge Detection and Elimination MS4 Component Inspection Program. The City performs proactive inspections of all MS4 components to	1. Document and report the number of proactive inspections.	1. Permit Years 1-5	City of Gainesville Public Works.

		specifically identify illicit discharges including illegal dumping. All illicit discharges are investigated and eliminated if possible.	2. Document and report the number of illicit discharges identified.	2. Permit Years 1-5	City of Gainesville Public Works.
			3. Document and report the number of illicit discharges eliminated.	3. Permit Years 1-5	City of Gainesville Public Works.
3d	1	Illicit Discharge Detection and Elimination Education Program – Public. The City's NPDES and the County's Environmental Protection web pages have sections dedicated to hazards associated with illicit discharge and improper disposal of waste information. The Web pages also have downloadable illicit discharge detection and elimination pamphlets.	1. Document and report the number of Web page visitors.	1. Permit Years 1-5	City of Gainesville Public Works, City of Gainesville Computer Services, Alachua County Environmental Protection, Alachua County Information and Telecommunication Services.
			2. Document and report the number of Web page downloads.	2. Permit Years 1-5	City of Gainesville Public Works, City of Gainesville Computer Services, Alachua County Environmental Protection, Alachua County Information and Telecommunication Services.
3d	2	Illicit Discharge Detection and Elimination Education Program – Employees. The City and County provide illicit discharge detection and elimination information to all new employees in orientation. Existing employees who work around chemicals, in areas where illicit discharges may occur, or are field personnel are required annually to attend illicit discharge detection and elimination training which contains information on how to identify an illicit discharge, proper waste disposal and the hazards associated with illicit discharge.	1. Document and report the number of new employees trained.	1. Permit Years 1-5	City of Gainesville Public Works, City of Gainesville Organizational Development, Alachua County Administrative Services.
			2. Document and report the number of existing employees trained.	2. Permit Years 1-5	City of Gainesville Public Works in conjunction with Safety programs at the City, Alachua County and Gainesville Regional Utilities.

		A	B	C	D
Element ID	BMP Number	BMP Description	Measurable Goal	Schedule for Implementation/Completion	Responsible Entity/Department
4a	1	Erosion and Sedimentation Control Requirements. The Alachua County Water Quality Ordinance (WQO) requires erosion and sedimentation controls on construction sites and includes sanctions to ensure compliance. The ordinance outlines minimum erosion and sediment controls and construction site waste controls. The City of Gainesville's Land Development Code (LDC) 30-270(b) addresses additional storm water requirements and 30-311 addresses violations, enhancements and penalty provisions.	Both ordinances are complete and in effect.	1. Permit Years 1-5	Alachua County Environmental Protection. City of Gainesville Public Works.
4a	2	Erosion and Sedimentation Control Requirements - Modifications. Modificaitons to the Alachua County WQO and the City of Gainesville's LDC sections referenced in 4a1 will be tracked and reported.	1. Document and report any changes to ordinances.	1. Permit Years 1-5	Alachua County Environmental Protection. City of Gainesville Public Works.
4b	1	Erosion and Sedimentation Control on Construction Sites. The County requires all construction sites in Alachua County (including Gainesville) to implement effective erosion and sedimentation controls per the Alachua County Water Quality Ordinance. The City of Gainesville's Land Development Code (LDC) 30-270(b) addresses additional storm water requirements and 30-311 addresses violations, enhancements and penalty provisions.	1. Document and report the number of active construction sites operating under the erosion and sedimentation control requirements outlined in 4a-01.	1. Permit Years 1-5	City of Gainesville Public Works, Alachua County Public Works, Alachua County Environmental Protection.

4c	1	Waste Control on Construction Sites. The County requires all construction sites in the County to implement effective waste controls per the Water Quality Ordinance.	1. Document and report the number of active construction sites operating under the waste control requirements outlined in 4a-01.	1. Permit Years 1-5	Alachua County Environmental Protection.
4d	1	Site Plan Review. The City reviews all construction site plans for erosion and sedimentation controls and construction site waste control. The City uses a checklist to establish the procedure for, and documentation of site plan reviews.	1. Document and report the number of site plans reviewed.	1. Permit Years 1-5	City of Gainesville Public Works, Alachua County Public Works.
			2. Document and report the number of site plans approved.	2. Permit Years 1-5	City of Gainesville Public Works, Alachua County Public Works.
4e	1	Public Stormwater Hotline. A hotline number, which is the main number to the County's Environmental Protection office, has been established to receive and consider information submitted by the public concerning construction-related stormwater issues. The hotline is advertised on the City's NPDES and the County's Environmental Protection Web pages.	1. Document and report the number of hotline comments received.	1. Permit Years 1-5	Alachua County Environmental Protection.
			2. Document and report the number of Web page (where the hotline is advertised) visitors.	2. Permit Years 1-5	City of Gainesville Public Works, City of Gainesville Computer Services, Alachua County Environmental Protection, Alachua County Communications.
4f	1	Construction Site Inspection Program. City and County Staff (certified Erosion and Sedimentation Control inspectors) inspect all construction projects and enforce applicable ordinances (as listed in 4a1).	1. Document and report the number of construction site inspections.	1. Permit Years 1-5	City of Gainesville Public Works, Alachua County Public Works, Alachua County Environmental Protection.
			2. Document and report the number of enforcement actions.	2. Permit Years 1-5	City of Gainesville Public Works, Alachua County Public Works, Alachua County Environmental Protection.

6a	9	MSC Vehicle Concrete Rinse Station. Concrete wash is self contained and has its own system that drains into the sanitary sewer. Sediment is cleaned out and sent to a lined landfill.	1. Document and report the amount of sediment/debris removed from concrete rinse.	1. Permit Years 1-5	City of Gainesville Public Works.
6a	10	MSC Vehicle Large Vehicle Rinse Station. Large vehicle rinse has isolated retention area. Absorbent socks are used to absorb any petroleum products that are rinsed into the pond. Pond is cleaned out on an as-needed basis and the sediment is deposited in a lined landfill. Water is from rinse is disposed of by land application.	1. Document and report the amount of sediment removed from large vehicle rinse.	1. Permit Years 1-5	City of Gainesville Public Works.
6a	11	MSC Spill Response and Prevention. Recycling, reclaiming, reusing process materials, overflow controls, diversion berms, preventative maintenance on equipment, smart material transfer/filling procedures, use of alternative products where applicable, inspections, spill kits on site (for small responses), personnel trained in spill response.	1. Document and report number of spills.	1. Permit Years 1-5	City of Gainesville Public Works.
			2. Document and report amount of absorbent material used in cleanups.	2. Permit Years 1-5	City of Gainesville Public Works.
6a	12	Illegal Dumping Control. On MSC site: Site clean-up and maintenance, signage, lighting, buildings and barriers for areas to avoid misplacement of hazardous materials. Off site: When operations finds drums or other hazardous materials in the field while performing maintenance activities, the staff calls ACEPD to report an unknown substance in the right-of-way and requests instruction for proper disposal.	1. Document and report number of illegal dumping incidents reported.	1. Permit Years 1-5	City of Gainesville Public Works.
			2. Document and report number of illegal dumping incidents resolved.	1. Permit Years 1-5	City of Gainesville Public Works.
