Partnership

Clean Water Pledge

I will do my part to keep the water clean in Florida's rivers, lakes and springs:

- I will not litter. I will put drink cups, cans, bottles, food wrappers, papers and all other trash into garbage cans and recycle containers.
- I will use a refillable bottle or cup for my drinks whenever I can.
- I will take shorter showers to save water.
- I will turn off the water while I brush my teeth.
- I will walk or bike short distances when my parents say it is OK.
- I will sweep or blow grass clippings back onto the lawn, not into the street, when I help with yard work.
- I will clean up after my pet.
- I will remember that only rain should go down storm drains.

I care about the environment!
I'm a Clean Water Kid!
